

KNP Assests 2024

Maintenance

- 2 GL-Man 05s
- 15 Picnic tables replaced
- 4 Accessible picnic tables completed
- Klukshu repeater comshell replaced and repeater installed

Trail Crew

- 4 crew working May 15th to Sept 20th
- 70km of trail brushed/cleared
- In collaboration with Y2C2 60 meters of boardwalk built at Coin Creek on the A'ay Chu

Campground

- 2 campground Attendants
- Otentiks cleaned 256 times
- 160 rolls of TP
- 60 Cords of firewood split & burned

Future Work

- Pre-fab Otentik cook shelter over the winter for spring install
- More accessible upgrades to Otentik #1
- Additional EV chargers at the Admin building and Daku to accommodate growing fleet

Fleet

- 2 new ford lightening Evs added to the fleet
- Level 2 EV charger installed on the Assets building

Challenges

- Year 2 of bad weather meant we could not install the JOHOB0 repeater as planned
- Increasing need for staff training and trying to accommodate that without significate impact to the short season and work plan
- Costs to provide training ie. chainsaw, Boat operators
- Increasing costs of goods and services taking a toll on A base budget. Cost of firewood and Janitorial services increasing significantly
